1 INTRODUCTION

Dear Student

Unisa is a comprehensive open distance e-learning (CODeL) higher education institution. The comprehensiveness of our curricula encapsulates a range of offerings, from strictly vocational to strictly academic certificates, diplomas and degrees. Unisa's "openness" and its distance eLearning character result in many students registering at Unisa who may not have had an opportunity to enrol in higher education. Our CODeL character implies that our programmes are carefully planned and structured to ensure success for students ranging from the under-prepared but with potential to the sufficiently prepared.

Teaching and learning in a CODeL context involves multiple modes of delivery ranging from blended learning to fully online. As a default position, all post graduate programmes are offered fully online with no printed study materials, while undergraduate programmes are offered in a blended mode of delivery where printed study materials are augmented with online teaching and learning via the learner management system – myUnisa. In some instances, undergraduate programmes are offered fully online as well.

Furthermore, our programmes are aligned with the vision, mission and values of the University. Unisa's commitment to serve humanity and shape futures combined with a clear appreciation of our location on the African continent, Unisa's graduates have distinctive graduate qualities which include:

- independent, resilient, responsible and caring citizens who are able to fulfil and serve in multiple roles in their immediate and future local, national and global communities
- having a critical understanding of their location on the African continent with its histories, challenges and potential in relation to globally diverse contexts
- the ability to critically analyse and evaluate the credibility and usefulness of information and data from multiple sources in a globalised world with its ever-increasing information and data flows and competing worldviews
- how to apply their discipline-specific knowledges competently, ethically and creatively to solve real-life problems
- an awareness of their own learning and developmental needs and future potential

Whether a module is offered either as blended (meaning that we use a combination of printed and online material to engage with you) or online (all information is available via the internet), we use myUnisa as our virtual campus. This is an online system that is used to administer, document and deliver educational material to you and support engagement with you. Look out for information from your lecturer as well as other Unisa platforms to determine how to access the virtual myUnisa module site. Information on the tools that will be available to engage with the lecturer and fellow students to support your learning will also be communicated via various platforms.

You are encouraged to log into the module site on myUnisa regularly (that is, at least twice per week). [MAC/NMA/ZMA4861-24-Y]. Because this is a fully online module, you will need to use myUnisa to study and complete the learning activities for this module.

The website for your module is MAC/NMA/ZMA4861-24-Y.

This tutorial letter contains important information about the module and we urge you to read it carefully and to always keep it at hand. This tutorial letter must be read in conjunction with tutorial letter 301 (CASALL1/301/2024) which also contains important information that relates to all the CTA 1 modules.

We wish you every success with your studies!

2 MODULE OVERVIEW

2.1 Purpose

The purpose of the module is to equip students with specific competencies in financial management; management decision-making and control; and strategy and risk - displaying a moderate level of integration between these competencies, with pervasive skills, ethics and professional practice, and certain other accounting competencies. The module is designed to facilitate students' acquisition of these competencies through knowledge of and engagement in relevant management accounting topics at the forefront of the field; an understanding of the theories, methods and techniques relevant to the field; and a thorough understanding of how to apply such knowledge to scenarios grounded in the real world.

2.2 Outcomes

For this module, you will have to master several outcomes:

- **Specific outcome 1:** a comprehensive and systematic/solid knowledge base of the enterprise's strategy development.
- **Specific outcome 2:** a comprehensive and systematic/solid knowledge base of the nature of cost accounting.
- **Specific outcome 3:** a coherent and critical/informed understanding of the key terms, rules, concepts and established principles of financial planning and control techniques and resultant performance measures.
- **Specific outcome 4:** apply decision-making criteria to well-defined but unfamiliar complex management accounting scenarios.
- **Specific outcome 5:** Stud a coherent and critical/informed understanding of the key terms, rules, concepts, established principles and theories of risk management.
- **Specific outcome 6:** solve well-defined but unfamiliar complex real world problems relating to sources and forms of finance and the cost of capital, by using the correct strategies and procedures.
- **Specific outcome 7:** obtain and utilise information in order to develop business plans and financial proposals to support the management activities of planning and decision-making.
- **Specific outcome 8:** analyse financial information and the entity's situation in order to manage its funds and develop strategies to return to a sustainable position when in trouble.
- **Specific outcome 9:** appraise financial information and the entity's situation and use valuation techniques in order to invest funds.
- **Specific outcome 10:** identify or advise a business in financial difficulty.

3 CURRICULUM TRANSFORMATION

Unisa has implemented a transformation charter, in terms of which the university has placed curriculum transformation high on the teaching and learning agenda. Curriculum transformation includes student-centred scholarship, the pedagogical renewal of teaching and assessment practices, the scholarship of teaching and learning, and the infusion of African epistemologies and philosophies. All of these will be phased in at both programme and module levels, and as a result of this you will notice a marked change in the teaching and learning strategy implemented by Unisa, together with the way in which the content is conceptualised in your modules. We encourage you to embrace these changes during your studies at Unisa in a responsive way within the framework of transformation.

4 LECTURER(S) AND CONTACT DETAILS

4.1 Lecturer(s)

The lecturers for this module are as follows:

DEPARTMENT OF FINANCIAL INTELLIGENCE (Situated in Building 1, Sunnyside Campus)		Telephone number
Advanced Management Accounting	(MAC4861, NMA4861, ZMA4861)	
Learning units 1-7		
Mr TJ Matsoma	(Co-ordinator)	012 429 6035
Ms F Venter		012 429 8955
Ms A Combrink		012 429 6963
Ms A Matsane		012 429 3111
Mr C Maepa		012 484 1475
Mr F Nortjé		012 429 8438
Learning units 8-19		
Ms A Ravat	(Co-ordinator)	012 429 8438
Mr WJ Coetzee		012 429 6035
Mr L Crafford		012 429 8955
Mrs B Huma		012 429 6963
Mr M Kabini		012 429 3111
Email		
MAC4861@unisa.ac.za	(Module email)	

4.2 Department

You can contact the Department of Financial Intelligence as follows:

Telephone number: 012 429 4868

E-mail: nemakm1@unisa.ac.za

4.3 University

Unisa is large institution and therefore it is imperative that you make use of the correct contact details when contacting the University with a specific issue. The main campus of the university is situated in Preller Street, Muckleneuk, Pretoria.

Administrative enquiries should be directed to the appropriate e-mail address to avoid unnecessary delays in the response; and should always include the student number in the subject line. You should only send an enquiry to one e-mail address at a time. Multiple enquiries should be split appropriately and e-mailed to the correct e-mail addresses. This will ensure that there is no confusion as to who must respond.

Contact addresses of the various administrative departments appear on the Unisa website: <http://www.unisa.ac.za/sites/corporate/default/Contact-us/Student-enquiries>.

Please include the student number in all correspondence.

5 RESOURCES

5.1 Prescribed book(s)

Title	Edition	Authors	Publisher	ISBN number & notes
Management and Cost Accounting in South Africa (including Student Manual)	1 st	Drury	Cengage (Andrew Ashwin)	Bundled version including Student Manual: 9781473792180
Managerial Finance	10th	FO Skae	LexisNexis	9781 77617 7608 The E-book can also be used: 9781 77617 7677

5.2 Library services and resources

The Unisa Library offers a range of information services and resources. The library has created numerous library guides, available at <http://libguides.unisa.ac.za>

Recommended guides:

- For brief information on the library, go to <https://www.unisa.ac.za/library/libatglance>
- For more detailed library information, go to <http://www.unisa.ac.za/sites/corporate/default/Library>
- Frequently Asked Questions, visit <https://www.unisa.ac.za/sites/corporate/default/Library/Frequently-Asked-Questions>
- For research support and services such as the Personal Librarian service and the Information Search Librarian's Literature, Search Request (on your research topic) service, visit <http://www.unisa.ac.za/sites/corporate/default/Library/Library-services/Research-support>.
- For library training for undergraduate students, visit <https://www.unisa.ac.za/sites/corporate/default/Library/Library-services/Training>
- Lending Services <https://www.unisa.ac.za/sites/corporate/default/Library/Library-services/Lending-services>
- Services for Postgraduate students <https://www.unisa.ac.za/sites/corporate/default/Library/Services-for-Postgraduates>
- Support and Services for students with disabilities <https://www.unisa.ac.za/sites/corporate/default/Library/Services-for-students-with-special-needs>
- Library Technology Support <https://libguides.unisa.ac.za/techsupport>
- Finding and using library resources and tools http://libguides.unisa.ac.za/Research_skills
- A–Z list of library databases <https://libguides.unisa.ac.za/az.php>

Important contact information:

- Technical problems encountered in accessing library online services: Lib-help@unisa.ac.za
- General library-related queries: Library-enquiries@unisa.ac.za
- Queries related to library fines and payments:

Library-fines@unisa.ac.za

- Interlibrary loan service for postgraduate students:
libr-ill@unisa.ac.za
- Literature Search Service:
Lib-search@unisa.ac.za
- Social media channels:
Facebook: UnisaLibrary and Twitter: @UnisaLibrary

6 STUDENT SUPPORT SERVICES

The *Study @ Unisa* brochure is available on myUnisa: www.unisa.ac.za/brochures/studies

This brochure contains important information and guidelines for successful studies through Unisa.

If you need assistance with regard to the myModules system, you are welcome to use the following contact details:

- Toll-free landline: 0800 00 1870 (Select option 07 for myModules)
- E-mail: mymodule22@unisa.ac.za or myUnisaHelp@unisa.ac.za

You can access and view short videos on topics such as how to view your calendar, how to access module content, how to view announcements for modules, how to submit assessment and how to participate in forum activities via the following link: <https://dtls-qa.unisa.ac.za/course/view.php?id=32130>

Registered Unisa students get a free myLife e-mail account. Important information, notices and updates are sent exclusively to this account. Please note that it can take up to 24 hours for your account to be activated after you have claimed it. Please do this immediately after registering at Unisa, by following this link: myLifeHelp@unisa.ac.za

Your myLife account is the **only** e-mail account recognised by Unisa for official correspondence with the university and will remain the official primary e-mail address on record at Unisa. You remain responsible for the management of this e-mail account.

6.1 First-Year/ First Time UNISA Experience Programme

Many students find the transition from school education to tertiary education stressful. This is also true in the case of students enrolling at Unisa for the first time. Unisa is a dedicated open distance and e-learning institution, and it is very different from face-to-face/contact institutions. It is a mega university, and all our programmes are offered through either blended learning or fully online learning. It is for this reason that we thought it necessary to offer first-time students additional/extended support to help them seamlessly navigate the Unisa teaching and learning journey with little difficulty and few barriers. We therefore offer a specialised student support programme to students enrolling at Unisa for the first time – this is Unisa’s First-Year Experience (FYE) Programme, designed to provide you with prompt and helpful information about services that the institution offers and how you can access information. The following FYE services are currently offered:

- FYE website: All the guides and resources you need in order to navigate through your first year at Unisa can be accessed using the following link: www.unisa.ac.za/FYE
- FYE e-mails: You will receive regular e-mails to help you stay focused and motivated.

- FYE broadcasts: You will receive e-mails with links to broadcasts on various topics related to your first-year studies (e.g. videos on how to submit assessments online).
- FYE mailbox: For assistance with queries related to your first year of study, send an e-mail to fye@unisa.ac.za.

7. STUDY PLAN

The studies of CTA students are based on predetermined weekly study periods for every module. Relevant learning units will be uploaded on myUnisa before a study week for the module commences, using the Lesson Tool. More detail on the study weeks are contained in the CASALL1/301/2024 tutorial letter. This module comprises the following learning units:

Learning unit no.	Topic
1	Nature, classification and allocation of cost
2	Product costing systems
3	Planning, budgeting and control
4	Standard costing
5	Performance measurement
6	Information application to decisions
7	Information for decision-making
8	Strategy and governance
9	Risk management
10	Cost of capital and capital investment appraisal
11	Sources and forms of finance
12	Dividend decision
13	Management of working capital
14	Treasury function
15	Analysis and interpretation of financial and non-financial information
16	Businesses in difficulty
17	Valuations
18	Mergers and acquisitions
19	Business plans and financial proposals

8. HOW TO STUDY ONLINE

8.1 What does it mean to study fully online?

To study fully online means that all study material and resources will be made available online, on the myunisa module site. Study material will therefore not be printed.

Study material content will be presented in learning units, using the Lessons tool as explained in Section 7 above. The following myunisa tools will also be utilised to facilitate online learning:

- **Announcements:** important information and updates relating to the module will be posted throughout the academic year, using this tool. It is important that you check the announcements frequently to ensure you stay updated.
- **Additional Resources:** Additional material such as videos, slides, integrated questions etc. will be posted using this tool. Please ensure this tool is monitored frequently to ensure you do not miss out on useful resources.
- **Discussion forum:** this tool can be used to communicate with other students in order to assist and guide each other and to perform specific activities as outlined in the individual learning units. Lecturers will post guidance/solutions to these activities at a later stage, after sufficient discussions among students have occurred.

In order to support you in your online learning journey, lecturers are available via the following channels:

- ***Email***

We prefer to communicate with you via e-mail. **It is compulsory that you communicate with us using your official Unisa myLife e-mail address.** Students either have questions of an administrative / general nature or questions that relate to the technical content of the module, namely academic questions. Upon receipt of your e-mail, we can firstly decide whether it is an administrative or academic matter and direct your e-mail accordingly. Secondly, when answering questions of a technical (academic) nature, the lecturer can provide a more thought through and technically correct answer as opposed to responding to a question received via telephone. It also provides you with the opportunity to critically analyse our response and to apply it to your own answering technique. E-mail communication further provides both parties with a record of the conversation.

The e-mail address of MAC4861 is: MAC4861@unisa.ac.za

You must provide your student number and the correct module code in all communication with us, especially when communicating via e-mail. If you do not provide your student number, thereby not identifying yourself as a student of this module, we may not answer your e-mail.

For queries relating to the module content, it is important to provide a correct reference to the relevant learning unit or paragraph number in the textbook relating to your query.

We try to answer all queries as soon as possible, but due to our high student numbers, we do sometimes receive many e-mails at once. Therefore, please allow us at least 48 hours during weekdays to attend to all queries, before sending a follow up e-mail.

- ***Telephone***

You can contact the MAC4861 team telephonically. If your query is of an administrative nature, please contact the administrative officer directly. If your query relates to the technical content of the module, you can call any of the MAC4861 lecturers. If you call a lecturer directly, please be mindful of the fact that not all the lecturers are always available via telephone. Lecturers also have other responsibilities and therefore the telephones and e-mails are attended to via a predetermined schedule. If you are not successful in a specific instance to contact us by telephone, please send an e-mail informing us about this and we will establish contact with you. Please refer to Section 4 for lecturer's phone numbers.

- ***Consultation via the booking system***

The School of Applied Accounting has recently launched an online booking system. This system enables you to book an appointment with an available lecturer for a 30 minute time slot. The booking system can be accessed via the following link:

<https://outlook.office.com/bookings/services>

Once on the booking site you will be required to:

- Select the date, time and lecturer you would like to consult with, from a drop-down list, based on lecturer availability.
- Include information relating to the reason for the consultation such as a summary of what you would like to discuss, page number reference to study material and specific question name or number, if applicable

Please note that this booking link should only be used for consultation on study material content and NOT for administrative questions.

- **Live lectures**

Live lectures will be held during the course of the year. These sessions are beneficial as they provide relevant information regarding each module, explain key principles, and discuss prior year exam questions and solutions including examination technique. These classes are free of charge and no registration is necessary. The recordings of these lectures and slides used will be made available on myunisa to accommodate those students who cannot attend. These lectures will include lectures on key topics and a debrief session after every test. Additional lectures will also be scheduled before the exam.

9. ASSESSMENT

9.1 Assessment criteria

Please refer to the individual learning units wherein the assessment criteria per learning outcome is outlined.

9.2 Assessment plan

- To complete this module, you will be required to submit four tests (formative assessment) and one exam (summative assessment).
- All information about when and where to submit your assessments will be made available to you via the myModules site for your module.
- Due dates for assessments, as well as the actual assessments are available on the myModules site for this module.
- To gain admission to the examination, you need to submit three tests.
- To gain admission to the examination, you need to obtain a year mark average of 40% for the assignments.
- The assignment weighting for the module is as follows:
 - The average mark of the **three best tests** of each subject will constitute the student's year mark.
- You will receive examination information via the myModules sites. Please watch out for announcements on how examinations, for the modules for which you are registered, will be conducted.
- The examination will count 80% towards the final module mark.

9.3 Assessment due dates

- There are no assignment **due dates** included in this tutorial letter.
- Assignment due dates will be made available to you on the myUnisa landing page for this module. We envisage that the due dates will be available to you upon registration.
- Please start working on your assessments as soon as you register for the module.

- Log on to the myUnisa site for this module to obtain more information on the due dates for the submission of the assessments.

9.4 Submission of assessments

- Unisa, as a comprehensive open distance e-learning institution (CODeL), is moving towards becoming an online institution. You will therefore see that all your study material, assessments and engagements with your lecturer and fellow students will take place online. We use myUnisa as our virtual campus.
- The myUnisa virtual campus will offer students access to the myModules site, where learning material will be available online and where assessments should be completed. This is an online system that is used to administer, document, and deliver educational material to students and support engagement between academics and students.
- The myUnisa platform can be accessed via <https://my.unisa.ac.za>. Click on the myModules 2024 button to access the online sites for the modules that you are registered for.
- The university undertakes to communicate clearly and as frequently as is necessary to ensure that you obtain the greatest benefit from the use of the myModules learning management system. Please access the announcements on your myModules site regularly, as this is where your lecturer will post important information to be shared with you.
- When you access your myModules site for the module/s you are registered for, you will see a welcome message posted by your lecturer. Below the welcome message you will see the assessment shells for the assessments that you need to complete.
- For written assessments, please note the due date by which the assessment must be submitted. Ensure that you follow the guidelines given by your lecturer to complete the assessment. Click on the submission button on the relevant assessment shell on myModules. You will then be able to upload your written assessment on the myModules site of the modules that you are registered for. Before you finalise the upload, double check that you have selected the correct file for upload. Remember, no marks can be allocated for incorrectly submitted assessments.

9.5 The assessments

As indicated in section 9.2, you need to complete four tests and one exam for this module. Details on the assessments are as follows:

The will be written out of 40 marks and consist of 15 minutes reading time and 60 minutes writing time. The average mark of the **three best tests** of each subject will constitute the student's year mark and you need **40% to obtain examination admission**. If only one or two tests are written, the total marks of the tests written will be divided by three to obtain the year mark. If no test is written the year mark will be nil. Note there are no sick tests or other opportunities for the tests. You are therefore encouraged to make every effort to submit all assessments to enhance your chances of gaining examination entrance for this module. This also implies that you should commence your studies immediately and work consistently throughout the year.

An outline of each test is provided below:

Study week		Test number
Refer to CASALL1/301/2024	Learning units 1 - 3	Test 1
	Learning units 4 - 7	Test 2
	Learning units 8 - 14	Test 3
	Learning units 15 - 19	Test 4

The scope of a test must not be regarded as isolated, since all previous work may be tested, however, each test will focus predominantly on the work covered in the specified learning units as indicated in the table above.

It is important to remember that you are studying towards a post-graduate course which comprises vast volumes of work. It is therefore not possible to start studying a month or two before the final examination. Consistent studying throughout the year will increase your chances of success in the final examination. The tests also present you with an opportunity to build up a year mark, which will be to your benefit. There are various support initiatives planned (live lectures, recorded lectures, slides) which are scheduled before and after tests, and also in preparation for the final examination.

Previous test questions and solutions will also be made available. These will give you some idea of the required standard.

The tests are limited open book tests for all the subjects which means that you may use **SAICA Handbooks**. **No subject textbooks are allowed**. Questions will be set in English only and you are required to answer them in English only.

REMEMBER to always write your correct course code and student number on your solution submitted

Administration of the tests

Your test marks are made available on the Unisa online platform. You may also confirm your test marks on the internet at <https://www.unisa.ac.za/sites/myunisa/default>

PLEASE DO NOT phone the lecturers or administrative staff of the Department for your test marks because they do not keep record of the test marks!

Remarking of tests

A mark plan for each test is uploaded on Myunisa and we advise you to remark your test as soon as you receive it back from Unisa. This is also a form of self-assessment for you. If you do not agree with your assessment, you may do the following:

- Write/type a motivation why you think your test should be remarked and clearly indicate where you think you should be awarded more marks.
- **Make sure to keep a copy of the test for your records.**

9.7 The examination

Examination information and details on the format of the examination will be made available to you online via the myUnisa site. Look out for information that will be shared with you by your lecturer and for communication from the university.

Only registered students who paid their study fees in full and complied with the 40%-year mark (refer Tutorial letter CASALL1/301/2024), will be allowed to write the examination. Students should obtain a minimum of 40% in the examination (examination mark) to qualify for a supplementary examination and a final mark of 50% to obtain credit for Advanced Management Accounting.

In the interest of fairness, examination admission rules will be applied strictly and consistently to all students. No requests for exceptions will be entertained. You are therefore requested to refrain from lodging such requests.

9.7.1 *Invigilation/proctoring*

Since 2020 Unisa conducts all its assessments online. Given stringent requirements from professional bodies and increased solicitations of Unisa's students by third parties to unlawfully assist them with the completion of assignments and examinations, the University is obliged to assure its assessment integrity through the utilisation of various proctoring tools: Turnitin, Moodle Proctoring, the Invigilator App and IRIS. These tools will authenticate the student's identity and flag suspicious behaviour to assure credibility of students' responses during assessments. The description below is for your benefit as you may encounter any or all of these in your registered modules:

Turnitin is a plagiarism software that facilitates checks for originality in students' submissions against internal and external sources. Turnitin assists in identifying academic fraud and ghost writing. Students are expected to submit **typed** responses for utilisation of the Turnitin software.

The **Moodle Proctoring tool** is a facial recognition software that authenticates students' identity during their Quiz assessments. This tool requires access to a student's **mobile or laptop camera**. Students must ensure their camera is activated in their browser settings prior to their assessments.

The Invigilator "mobile application-based service does verification" of the identity of an assessment participant. The Invigilator Mobile Application detects student dishonesty-by-proxy and ensures that the assessment participant is the registered student. This invigilation tool requires students to download the app from their Play Store (Google, Huawei and Apple) on their **mobile devices** (camera enabled) prior to their assessment.

IRIS Invigilation software verifies the identity of a student during assessment and provides for both manual and automated facial verification. It has the ability to record and review a student's assessment

session. It flags suspicious behaviour by the students for review by an academic administrator. IRIS software requires installation on students' **laptop devices** that are enabled with a webcam.

Students who are identified and flagged for suspicious dishonest behaviour arising from the invigilation and proctoring reports are referred to the disciplinary office for formal proceeding.

Please note:

Students must refer to their module assessment information on their myModule sites to determine which proctoring or invigilation tool will be utilised for their formative and summative assessments.

10. ACADEMIC DISHONESTY

10.1 Plagiarism

Plagiarism is the act of taking the words, ideas and thoughts of others and presenting them as your own. It is a form of theft. Plagiarism includes the following forms of academic dishonesty:

- Copying and pasting from any source without acknowledging the source.
- Not including references or deliberately inserting incorrect bibliographic information.
- Paraphrasing without acknowledging the original source of the information.

10.2 Cheating

Cheating includes, but is not limited to, the following:

- Completing assessments on behalf of another student, copying the work of another student during an assessment, or allowing another student to copy your work.
- Using social media (e.g. WhatsApp, Telegram) or other platforms to disseminate assessment information.
- Submitting corrupt or irrelevant files, this forms part of examination guidelines
- Buying completed answers from so-called "tutors" or internet sites (contract cheating).

10.3 For more information about plagiarism, follow the link below:

<https://www.unisa.ac.za/sites/myunisa/default/Study-@-Unisa/Student-values-and-rules>

11. STUDENTS LIVING WITH DISABILITIES

The Advocacy and Resource Centre for Students with Disabilities (ARCSWiD) provides an opportunity for staff to interact with first-time and returning students with disabilities.

If you are a student with a disability and would like additional support or need additional time for assessments, you are invited to contact MAC4861@unisa.ac.za to discuss the assistance that you need.

12. FREQUENTLY ASKED QUESTIONS

Question: Whom can I contact regarding registration matters?

Answer: You should contact the following persons in that regard:

Jabulani Chauke
012 429 4211
chaujk@unisa.ac.za

Question: I missed a test, what do I do now?

Answer: There are no special/sick tests. Therefore, you do not need to submit a reason for not writing a test. No additional tests are scheduled for cases of sickness or any unforeseen circumstances.

13. IN CLOSING

This tutorial letter summarised all the important administrative and assessment information relating to the Advanced Management Accounting course. Do refer back to it if you need to verify any general information regarding the course.

We trust that the preceding sections will assist you in approaching your studies in a methodical manner and with a greater level of understanding.

We hope you enjoy this part of your studies!
