Introduction:

Welcome to this month's Research Funding Bulletin for CEMS:

OGSR believes that funding is the central vein that drives productivity, influence the volume of workload and research activities. Hence the recent request for the university's subscription to Research Professional Database, in which criteria can be set for more discipline/ subject specific funding, from all over the world.

Research Africa Professional Database offers UNISA and its scholars the following:

- The latest research funding.
- Student exchange opportunities.

Many of the funding calls will require data management, equality, and impact statements. Our team of NRF rated experts are ready to guide you through the process prior to submission.

Support to access Research Funding Database is available through the office of

- Ms Pumeza Saliwe saliwp@unisa.ac.za
- Telephone number: 012 429 4076

Looking forward to your applications!

Lemelson Center Fellowship Program

[Bookmark](#) [Email](#) Actions

Lemelson Center for the Study of Invention and Innovation, US

The Lemelson Center Fellowship Program supports projects that present creative approaches to the study of invention and innovation in American society. These include, but are not limited to, historical research and documentation projects resulting in dissertations, publications, exhibitions, educational initiatives, documentary films, or other multimedia products.

The program provides access to the expertise of the Smithsonian's research staff and the vast invention and technology collections of the National Museum of American History (NMAH). The NMAH Archives Center documents both individuals and firms across a range of time periods and subject areas. Representative collections include the Western Union Telegraph Company Records, ca. 1840-1994 and the Earl S. Tupper Papers, documenting Tupper, and his invention, Tupperware. In addition, the NMAH Library offers long runs of historical technology serials like Scientific American and American Machinist, and the American Trade Literature collection, which includes 300,000 catalogs, technical manuals, and advertising brochures for some 30,000 firms, primarily from 1880-1945. For a comprehensive catalog of objects, manuscripts, images, and research materials available at the NMAH (and other Smithsonian units), see the Smithsonian Collections Search Center.

Reagan-Fascell Democracy Fellows Program

[Bookmark](#) [Email](#)

International Forum for Democratic Studies, US

The Reagan-Fascell Democracy Fellows Program is a federally funded, international exchange program that offers democracy activists, journalists, civil society leaders, and scholars from around the world the opportunity to spend five months in residence at the National Endowment for Democracy (NED), in Washington, D.C., in order to undertake independent research on democracy in a particular country or region. Located within NED's International Forum for Democratic Studies, a leading center for analysis of global democratic developments, the program provides a collegial environment and rich intellectual setting for educational exchange and professional development.

The program offers five-month fellowships for **practitioners** to improve strategies and techniques for building democracy abroad and five-month fellowships for **scholars** to conduct original research for publication. While in residence, fellows reflect on their experiences; engage with counterparts; conduct research and writing; consider best practices and lessons learned; and develop professional relationships within a global network of democracy advocates. Fellows are expected to complete a written product relating to their proposed research project. The fellowship culminates in a formal presentation in which fellows typically focus on their research project or another topic relating to the state of democracy in their country.
