CEMS RESEARCH FUNDING BULLETIN

September 2024

MS PUMEZA SALIWE

+27 12 -429-4076 

saliwp@unisa.ac.za 

Table of Contents

Introduction.....	3
Funding and Scholarships.....	4 – 20

Introduction:

Welcome to this month's Research Funding Bulletin for CEMS:

OGSR believes that funding is the central vein that drives productivity, influence the volume of workload and research activities. Hence the recent request for the university's subscription to Research Professional Database, in which criteria can be set for more discipline/ subject specific funding, from all over the world.

Research Africa Professional Database offers UNISA and its scholars the following:

- The latest research funding.
- Student exchange opportunities.

Many of the funding calls will require data management, equality, and impact statements. Our team of NRF rated experts are ready to guide you through the process prior to submission.

Support to access Research Funding Database is available through the office of

- Ms Pumeza Saliwe saliwp@unisa.ac.za
- Telephone number: 012 429 4076

Looking forward to your applications!

PhD and Post-Docs / Visiting Scholars

European Foundation for Management Development doctoral research awards

[Bookmark](#) [Email](#) Actions ▼

Emerald Group Publishing Limited, GB

Emerald, in collaboration with the European Foundation for Management Development, invites applications for its doctoral research awards. These recognise the work of doctoral students whose research creates a positive impact on a local and global scale in the area of responsible management. The research must address an issue of importance in one of the following categories:

- Responsible leadership
- UN SDG-related issues for responsibility
- Food poverty and security
- Sustainable supply chains
- CSR and greenwashing
- Reducing inequality
- Responsible and ethical marketing
- Innovative responsible management
- Social responsibility
- Responsible economics
- Curriculum development in responsible management
- Responsible management knowledge transfer partnerships

Lemelson Center Fellowship Program

[Bookmark](#) [Email](#) Actions

Lemelson Center for the Study of Invention and Innovation, US

The Lemelson Center Fellowship Program supports projects that present creative approaches to the study of invention and innovation in American society. These include, but are not limited to, historical research and documentation projects resulting in dissertations, publications, exhibitions, educational initiatives, documentary films, or other multimedia products.

The program provides access to the expertise of the Smithsonian's research staff and the vast invention and technology collections of the National Museum of American History (NMAH). The NMAH Archives Center documents both individuals and firms across a range of time periods and subject areas. Representative collections include the Western Union Telegraph Company Records, ca. 1840-1994 and the Earl S. Tupper Papers, documenting Tupper, and his invention, Tupperware. In addition, the NMAH Library offers long runs of historical technology serials like Scientific American and American Machinist, and the American Trade Literature collection, which includes 300,000 catalogs, technical manuals, and advertising brochures for some 30,000 firms, primarily from 1880-1945. For a comprehensive catalog of objects, manuscripts, images, and research materials available at the NMAH (and other Smithsonian units), see the Smithsonian Collections Search Center.

The Lemelson Center invites all applications covering the broad spectrum of research topics in the history of technology, invention, and innovation. However, the Center especially encourages proposals that align with one (or more) of its strategic research and programmatic areas, including 1) projects that illuminate inventors from diverse backgrounds or any inventions and technologies associated with under-represented groups, such as women, minorities, LGBTQ, and the disabled; (2) projects exploring innovation in sports and sports technology; or (3) projects that explore the broader ecosystem of individuals and institutions that support inventors, including inventors' professional organizations; angel investors, venture capitalists, and financiers; incubators and entrepreneurial coaches; patent agents and IP attorneys; product designers, manufacturers, and marketers; and bankruptcy-liquidation specialists.

Closing date 01 November 2024 (Forecast)

Closing date note 11:59 p.m. EST

Deadline Information ---

Recurrence This call is repeated once a year.

Date added 15 September 2023

Award type Fellowships or Post-doctoral Awards

Award amount max USD 10,000

Award amount min USD 7,500

Amount note Fellowship tenure is based upon the applicants' stated needs (and available funding) up to a maximum of 10 weeks. All stipends are subject to tax; non-US applicants should inquire about visa status and tax implications. Stipends for 2020-2021:

- Pre-doctoral: \$750/week
- Post-doctoral/Professional: \$1,000/week [show less](#)

Eligibility Profile (Funding)

Country of applicant institution Unrestricted

Nationality of researcher Unrestricted

Applicant type ---

Career stages Early Career and Emerging in Field; Graduate Student or Pre-doc; Mid-Career to Established in Field

Eligibility Note The Center annually awards two to three fellowships to pre-doctoral graduate students, post-doctoral scholars, and other professionals (e.g. authors, journalists, attorneys) who have completed some advanced training (e.g. usually an MA or JD, but please inquire if you have questions). Bank Internship

[Bookmark](#) [Email](#) Actions

World Bank (WB), INT

The internship allows individuals to bring new perspectives, innovative ideas and research experience into the Bank's work, while improving skills in a diverse environment. Internships are available in both development operations and other business units (such as Human Resources, Communications, Accounting, etc.) however, availability during a given internship term is based on business need.

The WB Internship Program typically seeks candidates for: Operations (Front Line) in the following fields: economics, finance, human development (public health, education, nutrition, population), social sciences (anthropology, sociology), agriculture, environment, engineering, urban planning, natural resources management, private sector development, and other related fields; or Corporate support (Accounting, Communications, Human Resources Management, Information Technology, Treasury, and other corporate services).

sjcamrf@joh.cam.ac.uk

Telephone

Closing date 14 September 2024 (Forecast)

Closing date note Due by 16:00 BST.

Deadline Information ---

Recurrence This call is repeated once a year.

Date added 10 August 2023

Award type Fellowships or Post-doctoral Awards; Research: Project Grants & Innovation

Award amount max £33,966

Award amount min £31,396

Amount note St John's College invites applications for up to four Research Fellowships, tenable for up to four years from October 1, 2024.

The salary scale is £31,396 - £33,966 p.a. and Fellows are permitted to receive additional pay for up to six hours' College or University teaching a week.

Research Fellows wishing to live in College are provided with residential accommodation with charges for services and supplies. Fellows who do not live in College are provided with office accommodation. Those with a partner/family will be eligible for a housing allowance. Research Fellowships are held on condition of residence within the University of Cambridge, i.e. within 10 miles of the centre of Cambridge, as per University guidelines. Research Fellows are entitled to dine in College.

Research Fellows may apply for grants for academic materials, travel expenses, conferences and book allowances and, as appropriate, the cost of extended periods of research outside Cambridge.

The College would consider a deferral of a Research Fellowship, or a period of leave during the Fellowship, to take up an appointment outside the College/University that contributes to professional development, where the maximum period for these options is one year.

Eligibility Profile (Funding)

Country of applicant institution Unrestricted

Nationality of researcher Unrestricted

Applicant type ---

Career stages Early Career and Emerging in Field; Graduate Student or Pre-doc

Eligibility Note Applications will be accepted from any graduate of a university within or outside the United Kingdom. Successful candidates are normally expected to be post-doctoral researchers who have been awarded their PhD within the last two years or graduate students in the latter stages of their research leading to a PhD.

Candidates holding a fellowship or other post-doctoral stipend awarded by a Research Council or other similar body may apply. Those holding a Fellowship at a Cambridge College (other than a Fellowship without stipend) may not apply. [show less](#)
