A word of welcome

Welcome to the research bulletin for the College of Economic and Management Sciences. OGSR believes that funding is the central vein that drives productivity, influence the volume of workload and research activities. Hence the recent request for the university's subscription to Research Professional Database, in which criteria can be set for more discipline/ subject specific funding, from all over the world.

Research Africa Professional Database offers UNISA and its scholars' the following: The latest research funding.

Call for fellowships and scholarships. Conference calls

Many of the funding calls will require data management, equality, and impact statements. Our team of NRF rated experts are ready to guide you through the process prior to submission.

Support to access Research Funding Database is available through the office of:

*Ms Melanie Malan: Malanmm@unisa.ac.za

*Ms. Ntwanano Mboweni: mbowenhc@unisa.ac.za

Small Research Grants on Education

[Email](#)

Actions

[Spencer Foundation, US](#)

The Small Research Grants on Education Program supports education research projects that will contribute to the improvement of education, broadly conceived, for projects ranging from one to five years. We accept applications three times per year.

This program is "field-initiated" in that proposal submissions are not in response to a specific request for a particular research topic, discipline, design, method, or location. Our goal for this program is to support rigorous, intellectually ambitious and technically sound research that is relevant to the most pressing questions and compelling opportunities in education.

Closing date 04 December 2024

Deadline Information Proposals due by 12:00pm Noon central time on the deadline date

Recurrence This call is repeated 3 times a year.

Date added 18 September 2024

Award type Research: Project Grants & Innovation

Award amount max USD 50,000

Award amount min ---

Amount note Budgets up to \$50,000 for projects ranging from one to five years.

Eligibility Profile (Funding)

Country of applicant institution Unrestricted

Nationality of researcher Unrestricted

Applicant type Academic Institution; Government or Public Sector; Non-profit

Career stages Early Career and Emerging in Field; Mid-Career to Established in Field

Eligibility Note

- Principal Investigators (PIs) and Co-PIs applying for a Small Research Grant on Education must have an earned doctorate in an academic discipline or professional field, or appropriate experience in an education research-related profession. While graduate students may be part of the research team, they may not be named the PI or Co-PI on the proposal.
- The PI must be affiliated with a non-profit organization or public/governmental institution that is willing to serve as the administering organization if the grant is awarded. The Spencer Foundation does not award grants directly to individuals. Examples include non-profit or public colleges, universities, school districts, and research facilities, as well as other non-profit organizations with a 501(c)(3) determination from the IRS (or equivalent non-profit status if the organization is outside of the United States).
- Proposals are accepted from the U.S. and internationally, however, all proposals must be submitted in English and budgets must be proposed in U.S. Dollars.

Nemmers prizes in economics, mathematics and Earth sciences

[Email](#)[Actions](#)

Office of the Provost, US

Northwestern University invites nominations for the Nemmers prizes. These recognise achievement and contributions to new knowledge or the development of new modes of analysis in the fields of economics, mathematics and Earth sciences respectively. There are three prizes:

- the Erwin Plein Nemmers prize in economics;
- the Frederic Esser Nemmers prize in mathematics;
- the Nemmers prize in Earth sciences.

Individuals of all nationalities and institutional affiliations are eligible, except current or recent members of the Northwestern University faculty and Nobel Prize recipients. Nominations from experts in the field are preferred to institutional nominations.

Each prize is worth USD 200,000. Recipients are expected to give a public lecture and participate in other scholarly activities at Northwestern University for a period of 10 weeks.

Ibrahim Leadership Fellowships

[Email](#)

Actions

Mo Ibrahim Foundation, GB and other funders

The Ibrahim Leadership Fellowships are a 12-month programme designed to support the professional development of future African leaders. Fellowships equip fellows with technical and leadership skills, and enable them to contribute directly to research and policy design at their host institutions.

Fellows are hosted at the following institutions:

- the African Development Bank (AfDB);
- the International Trade Centre (ITC);
- the United Economic Commission for Africa (UNECA).

Each of these institutions will host one individual, offering fellows the opportunity to learn from and contribute to their senior management teams working across Africa. In addition, the fellows will receive tailored mentorship from global leaders in a diverse range of fields, gaining insights to help shape their personal leadership journeys.

Closing date 20 November 2024

Deadline Information ---

Recurrence This call is repeated once a year.

Date added 24 September 2024

Award type Fellowships or Post-doctoral Awards; Research: Project Grants & Innovation

Award amount max USD 100,000

Award amount min ---

Amount note Fellowships include a generous stipend of \$100,000 to support living expenses.

Event Details

Scope	The workshop aims to bridge the gap between software engineering and business research. It is expected to continue the development of the community and its research topics, including emerging trends for software-intensive businesses, mapping challenges and best practices in the industry, and proposing new avenues for research and practice.
Topics	<ul style="list-style-type: none">○ Software product management (e.g., strategy, planning, pricing)○ Software ecosystem (e.g., engineering ecosystems, analysis of - ecosystem data, modeling of ecosystem structure and behavior, management of developer ecosystems and platforms)○ Continuous practices (e.g., experimentation, innovation, improvement)○ Agile & lean projects & portfolio (e.g., methods & practices, management and organizing, behavioral and cognitive factors)○ Organizational management (e.g., managing technical and social debt, integrating product and business development)○ Software startups (e.g., scaling, pivoting, business models)○ Software platform (e.g., orchestration, governance, architecture, evolution and lifecycle)○ Software engineering economics (e.g., in engineering of software or in the software industry)○ Emerging trends and research areas (e.g., remote work, deep learning, AI ethics, digital twins, management of human-AI symbiosis, etc.)

Specification Research papers must have a maximum length of 8 pages. Industry reports or positions papers are limited to 4 pages. It is not possible to pay for extra pages. There is no limit on the number of submissions an author may submit, but authors are advised to focus on quality rather than on quantity. We will follow a double-blind process, i.e., it is mandatory to anonymize the submission. The workshop papers will be published by the IEEE. Therefore, submissions must conform to the IEEE conference proceedings template, specified in the IEEE Conference Proceedings Formatting Guidelines.

Scope This track delves into how KM is being reshaped by the integration of Artificial Intelligence (AI) applications and the shifting dynamics between humans and the digital realm. Moreover, it's crucial for KM to extend beyond organizational confines, facilitating knowledge flows with suppliers, customers, and within the broader knowledge networks. This involves rethinking traditional business strategies to integrate deliberate and emergent knowledge strategies, thus ensuring a dynamic and responsive KM system.

Topics

Our discussions will explore how KM can be a boon, enhancing organizational agility and innovation, or a bane, if misaligned with the evolving technological and business landscapes.

- Knowledge dynamics models and their practical implications.
- Knowledge creation and acquisition at the individual and organizational levels.
- Knowledge sharing, knowledge hiding and hoarding.
- Knowledge translation models and their applications.
- Knowledge flows within organizations and across their borders.
- Customer knowledge management, open innovation and value co-creation.
- Knowledge networks and their dynamics.
- Learning, unlearning and re-learning processes.
- Organizational learning and the learning organizations.
- Developing knowledge strategies and integrating them into the business strategies.
- Knowledge management and digitalization, including AI challenges.
- Designing knowledge critical infrastructures for increasing resilience and achieving sustainability.
- Knowledge vulnerabilities and knowledge risks.
- The future of knowledge management.

Specification

The Extended Abstract from 500 to 2000 words (including references) and it should be in a Word file.

The extended abstract proposal should include:

Title

Abstract

Name and last name of the speaker(s)

Scope This track delves into the ways AI is reshaping consumer behavior, influencing purchasing decisions, and fostering new paradigms in business-consumer relationships. With a focus on the rapid diffusion of AI in the technological product-service ecosystem, this track explores the dual perspectives of business and consumer adaptation to AI advancements. Businesses leverage AI to gain deeper insights into consumer psychology, tailoring their offerings to better meet evolving needs, while consumers increasingly engage with AI-powered tools like chatbots, smart devices, and real-time services, which enrich their interaction and decision-making experiences.

Topics

- General Consumption Behavior and Artificial Intelligence
- AI-powered Decision Making by Consumers
- AI and Consumer Psychology
- AI-driven Consumer Insights and Segmentation
- AI and the Gamification of Shopping Experience
- AI and Conversational Commerce
- AI and the Subscription Economy
- Ethical Considerations in AI and Consumer Behavior
- Consumer Resistance to AI
- Trust and Acceptance of AI
- Ease of AI Use in Business-Consumer Interactions
- Communication Quality and Efficiency with AI
- Consumer Satisfaction with AI Recommendations
- Economic Impacts of AI in Business-Consumer Interactions
- Autonomy in AI-driven Buying Decisions
- Relationship Dynamics between Consumers and AI
- Empathetic AI in Consumer Interactions
- Consumer Expectations of AI
