

The Unisa Executive Director: Department of Tuition Support and Facilitation of Learning (DTSFL)

invites you to a webinar

Showcasing the impact of Recognition of Prior Learning (RPL)

The Recognition of Prior Learning (RPL) Unit is responsible for providing students with study opportunities for the recognition of previous knowledge, skills and competencies in order for them to have access, mobility and better career paths. At the heart of our RPL process is our commitment to being responsive and student-centered, through the provision of a supportive and an enabling environment for students with work experience and a set of skills to study further through UNISA's comprehensive open distance e-learning (CODEL) model. This webinar is aimed at showcasing videos profiling students who were admitted into their UNISA qualifications using the RPL process. The videos will be in all official languages, Sign Language and subtitles.

The speakers at this webinar include among others the following: Prof V McKay (Acting Vice-Principal: Teaching, Learning, Community Engagement and Student Support); Khadzi Florence Masebe (Multilingual Actress and Language Activist); Prof Koliswa Moropa (Manager: Language Unit); Prof TM Sengani (Retired Professor of African Languages); and Prof S Madonsela (Chair of Department: Department of African Languages).
