

Invitation

Research and Innovation Week

DATE: 20 MAY 2025

VENUE: COUNCIL CHAMBERS, 2ND FLOOR NB PITYANA BUILDING, UNISA SCIENCE CAMPUS

SUB-THEME: BRINGING TRANSFORMATIVE SCIENTIFIC, ENGINEERING & TECHNOLOGICAL SOLUTIONS CLOSER TO THE MARKET

The College of Science, Engineering and Technology invites you to the Research & Innovation Day for 2025. The program of the day is designed to promote innovation and entrepreneurship in emerging markets and at CSET. We support students and academics (their respective supervisors) with innovative ideas in establishing and upscaling robust business models.

The service is tailored to meet the needs of the local markets and to promote establishment of CSET spin-off companies to not only improve the economy of the country but to also develop and equip students, enabling them to engage in economic activities during and after their study period. This program is designed to help CSET align to national frameworks and to meet the objectives of Entrepreneurship Development in Higher Education (EDHE) which is the division of the Department of Higher Education & Training (DHET).

Define tomorrow.
