College of Science, Engineering and Technology

School of Engineering

Don't be left out! Apply to study Engineering at the University of South Africa and enjoy the opportunity to use our State-of-the-art laboratories.

Through open distance learning (ODL), the School of Engineering offers National Diploma and BTech courses in Engineering to students who are interested in becoming professional technicians or technologists in the following disciplines:

National Diploma
- Engineering: Mechanical [NDEMC]
- Engineering: Industrial [NDENI]
- Engineering: Chemical [NDECE]
- Engineering: Electrical: Electronics and Electronic Communication [NDEEN- EEC]
- Engineering: Electrical: Power Engineering [NDEEN - PEN]
- Engineering: Electrical: Mechatronics [NDEEN - MEC]
- Engineering: Electrical: Clinical Engineering [NDEEN - CEN]
- Engineering: Electrical: Computer Systems [NDEEN - COS]
- Engineering: Electrical: Process Instrumentation [NDEEN - PIN]
- Engineering: Mining [NDMIN]
- Engineering: Civil [NDECI]

Baccalaureus Technologiae
- Engineering: Mechanical [BTMEE]
- Engineering: Industrial [BTENI]
- Engineering: Chemical [BTENC]
- Engineering: Chemical: Environmental [BTECE]
- Engineering: Electrical: Power [BTELN-PEN]
- Engineering: Electrical: Process Instrumentation [BTELN-PIN]
- Engineering: Electrical: Telecommunications [BTELN-TEL]
- Engineering: Electrical: Computer Systems [BTELN-COS]
- Engineering: Electrical: Clinical [BTELN-CEN]
- Engineering: Civil: Structural [BTECV-STR]
- Engineering: Civil: Water [BTECV-WAT]
- Engineering: Civil: Environmental [BTECV-ENV]
- Engineering: Civil: Urban[BTECV-URB]

Join us as a student, and develop yourself into a professional.
It is important to note that the National Diploma and BTech has practical Modules that have residential requirements (on campus for a number of days) as well as work-integrated learning that requires students to be placed in industry for up to a year.

For admission requirements
