

IAEA Marie Skłodowska-Curie Fellowship Programme

Introduction

The IAEA Marie Skłodowska-Curie Fellowship Programme (MSCFP) seeks to inspire and support young women to pursue a career in the nuclear field. To that end, the MSCFP provides scholarships to selected students studying towards a Master's degree in nuclear related subjects as well as internship opportunities facilitated by IAEA.

Eligibility criteria

The IAEA MSCFP is open to students from IAEA Member States who meet the following entry requirements:

- Female candidates;
- Accepted by or enrolled in an accredited university in Master's programme in a nuclear related field.

Preference will be given to applicants with above average academic credentials (75% or above or GPA > 3.0 out of 4.0).

Fields of study

The programme supports young women studying in nuclear related fields relevant to the IAEA's work to advance the safe, secure and peaceful uses of nuclear science and technology such as nuclear engineering, nuclear physics and chemistry, nuclear medicine, isotopic techniques, radiation biology, nuclear safety, nuclear security, non-proliferation and nuclear law. More examples of related fields are listed [here](#).

How to apply?

Those who meet the eligibility criteria are invited to apply using the IAEA MSCFP [online application form](#). The online application portal will open on Friday, 15 July 2022 and will **close on Friday, 30 September 2022 at 23:59 (CEST)**.

The documents required in addition to completed online application form are:

- Copy of the Passport/National ID
- Official acceptance/admission letter from university into the Master's programme indicating the nuclear related field of study and duration of the programme
- Statement of tuition fees/confirmation of tuition costs
- Completed reference forms **sent directly to MSCFP@iaea.org** by TWO referees (download the form [here](#)).

NOTE: All application documents must be submitted in English using the MSCFP online application form. If documents are submitted in original language please also include official translation in English. **Incomplete applications will not be considered.**

Selection process

Applications are assessed by the IAEA MSCFP Technical Selection Committee against MSCFP selection criteria including the applicant's entry requirements, educational background and prior achievements, motivation and impact of the fellowship on the applicant's career goals and commitment to public service. Consideration is given to geographic, field of study and linguistic diversity.

All applicants will be notified of the decision by e-mail.

MSCFP award

The students are awarded up to €20,000 for tuition costs and up to €20,000 for living costs for the Master's programme.

Obligations

The selected applicants will receive an offer and will be requested to confirm the acceptance of the fellowship within one week. The offer will provide information on the award details, including payment modality, the expected commitment, as well as administrative requirements and arrangements.
