

Amazon is currently recruiting for software development engineer internship opportunities in Cape Town. Students should be currently enrolled in a Bachelor's or Master's Degree in Computer Science, Computer Engineering, or related fields. No specific programming language is required, but you should be familiar with the syntax of languages such as Java, C/C++, or Python.

These internships offer:

- Flexible start dates throughout the year
- 3-month duration in Cape Town (option for relocation support)
- Mentorship from experienced Amazon engineers
- Hands-on experience with innovative technologies: Design and build innovative technologies in a large distributed computing environment and help lead fundamental changes in the industry.
